| 016  | Subase Kings Bay, Georgia    |  | Waste Information Document (WID)     |                   |
| As of 12/7/2017  |                              |  | WID Number 2920 - 016                |                   |
| Waste Description: COATING COMPOUND/METAL PRETREATMENT   |                              |  |                                      |                   |
| Waste Material label required?: YES  |                              |  | Hazardous Waste label required?: YES |                   |
| Waste Generation Process: THIS MATERIAL NORMALLY USED TO TREAT ALUMINUM SURFACES. EXPIRED SHELF LIFE, IN OPEN OR DAMAGED CONTAINERS.                     |                              |  |                                      |                   |
| Waste Class: HAZARDOUS WASTE   |                              |  | Required Container: POLY DRUM        |                   |
| EPA Waste Numbers D001,D002,D007   |                              |  |                                      |                   |
| Special Handling & Instructions: UHC: MERCURY  |                              |  |                                      |                   |
| Remarks GHS02, GHS05, GHS08, GHS09   |                              |  |                                      |                   |
| For Environmental Department Use Only - - - - Material Composition   |                              |  |                                      |                   |
| Component  |                              | Percent  |                                      | Parts Per Million |
| 1. ISOPROPANOL   |                              | 60%  |                                      | 600000 ppm        |
| 2. N-BUTANOL   |                              | 15%  |                                      | 150000 ppm        |
| 3. ZINC CHROMATE   |                              | 5%   |                                      | 50000 ppm         |
| 4. PHOSPHORIC ACID   |                              | 5%   |                                      | 50000 ppm         |
| 5. INERT INGREDIENTS   |                              | 15%  |                                      | 150000ppm         |
| Physical State: LIQUID   | Waste Water: NO              | Toxic: YES   | Dioxin Listed: NO                    |                   |
| Corrosive: YES   | pH: 1.50                     | Reactive: NO   | Flash Point: 53 F.                   |                   |
| High TOC:  | Low TOC :                    | Land Ban: YES  | Flammable: YES                       |                   |
| Reason for Classification: FLASH POINT 53° F, pH = 1.5, 5% ZINC CHROMATE, 15% SPENT N-BUTANOL  |                              |  |                                      |                   |
| Treatment Standards: 40 CFR 261  |                              | CAS# MIXTURE   | Generation Code: G06                 |                   |
| Shipping Information   |                              |  |                                      |                   |
| DOT Shipping Name: UN2920, WASTE CORROSIVE LIQUID FLAMMABLE NOS (ISOPROPANOL, N-BUTANOL, PHOSPHORIC ACID, ZINC CHROMATE) 8, PGII, D001, D002, D007       |                              |  |                                      |                   |
| HAZ Class: HAZARDOUS WASTE   | Reportable Quantity: 10 LBS. |  | Emergency Response Guide #: 132      |                   |
| EPA Waste Numbers: D001,D002,D007  |                              |  |                                      |                   |
| Certification: I certify that the above named materials are the only compounds included in the waste stream described and no other substance is present. |                              | <div style="display: flex; justify-content: space-between;"> <div> Prepared by<br/> Signed and Dated Copy On File </div> <div> Subase Env.
